Trail Directions

Start from Kinnitty forest entrance 3km from the village.

Keep left after the barrier and follow the path downhill to the Camcor River and follow river downstream. Cross the mountain bike trail with care.

Your loop turns right (uphill) here, and continues to ascend along a forest track for almost 1km before rounding a right bend and reaching a Y-junction.

Veer to the right here – still following the Slieve Bloom Way and the **green** and **blue** loops. After 500m the **blue** loop and Slieve Bloom Way turn left onto an uphill woodland trail. You continue straight on here.

Continue to follow the forest track for a further 400m to reach a 3-way junction. Veer right here.

It is 200m to the trailhead.
