King Arthur's Labyrinth

An Underground Adventure

King Arthur's Labyrinth is time travel at its best as you're swept underground, by a mysterious hooded boatman, and through a magical waterfall – your gateway to the Dark Ages and a time of myth, magic and King Arthur himself.

Once through the waterfall and inside the ancient Labyrinth your boat docks and you're guided by the boatman through winding tunnels and immense caverns to find ancient myths and legends.

Enjoy stories of the mighty King Arthur who came out of the darkness to face formidable Saxon invaders, stories of dragons foretelling Celtic glory, of a giant so colossal he waded across the Irish Sea, of King Arthur's final battle - the Battle of Camlan and more; all brought to life through dramatic scenes, light and sound.

King Arthur's Labyrinth is a real adventure for young and old whatever the weather – a cool attraction when hot, a dry attraction when wet...

Corris Mine Explorers

Join one of Wales' top Mine Explorers and enter the abandoned workings of an old Welsh Slate Mine. First worked in 1836 and abandoned by the miners in the 1970s, there are more than 130 years of mining history; discarded and forgotten - it's like walking into a time capsule. Completely awe-inspiring and not to be missed. (Minimum age 8).
